The Danish electronic band Vines had already been rumored to be working with Max. Vogue Classical & Jazz » Max Richter | Wikipedia Wednesday, 26 October 2011 Starting From The Inside It all began with a thought. I'd long been mulling over the idea of how to recreate the Suneris from Final Fantasy IX, a cyber-punk RPG that uses visual effects to enhance the iconic character portraits that accompanied its globe-trotting adventures and vibrant cityscapes. For years, I had admired the infamous 3D models of the player characters featured in that game, and had always wondered whether I could emulate their visual styles. Fast-forward a few years, and I'd finally bitten the bullet and began working on something a bit more ambitious and long-term than my usual quick & dirty sketch-and-sketch style. I'd found most of the tools and techniques I'd need to make it work, and I was definitely starting to get into shape. But it wasn't as though I had the time to wait around for perfection. I needed to get started right away if I was going to avoid that old standby of "a lot of time later". I'd just finished sketching out some character designs for a game based on a fantasy/steampunk setting, when I suddenly realised that I was forgetting one very important detail. In spite of being widely mocked for it, by some, and loved by others, that particular detail is a true rarity in the world of 3D computer games: a cartoon character. This was the spark that blew my little project up into a
